

# MUHAMMAD SADIK

Data Analyst | Python | SQL | Excel | Power BI | MySQL

sadikabdusaleem@gmail.com | +91 7736986240 | keralam,malapuram | [LinkedIn](#)

## PROFESSIONAL SUMMARY

Computer Science Engineering completed with hands-on experience in **data analysis**, Python, Pandas, SQL, and MySQL, and a strong foundation in data cleaning, exploratory data analysis (EDA), feature engineering, and data visualization. Built an end-to-end Customer Intelligence Platform using **113K+ e-commerce records**, integrating datasets to analyze customer behavior, sales, delivery performance, and business metrics.

## SKILLS

**Programming & Data Analysis:** Python, Java, SQL, Excel, Tableau, PowerBI, Data Cleaning, Data Transformation, Exploratory Data Analysis, Statistical Analysis, RAG, FastAPI, LLM integration

**SQL & Databases:** SQL, MySQL, Joins, Data Modeling, CTEs, Subqueries, Database Design, Aggregations, Window Functions

**Excel:** Microsoft Excel, Pivot Tables, XLOOKUP, INDEX-MATCH, SUMIFS, COUNTIFS, Data Cleaning, Charts, Power Query

**Business Intelligence:** Power BI, Power Query, DAX, Data Modeling, Relationships, KPI Development, Dashboard Development, Data Storytelling

**Analytics:** Descriptive Statistics, Correlation Analysis, Trend Analysis, RFM Analysis, Sales Analytics, Revenue Analysis, Customer Segmentation

**Tools:** Git, GitHub, Linux, Jupyter Notebook, MySQL Workbench, Pycharm, VS Code

## PROJECTS

**Customer Intelligence Platform** · Python, Pandas, NumPy, Excel, Power BI, SQL, MySQL

Ⓢ [Project Link](#)

- **Architected** an end-to-end customer analytics platform using the Olist e-commerce dataset, processing 113K+ order records across customer, order, product, seller, payment, and review data
- **Cleaned and integrated** multiple datasets using Python and Pandas to create an analysis-ready dataset
- **Performed** EDA to uncover patterns in customer behavior, sales, products, payments, and delivery performance
- **Engineered** key features like order value, delivery time, delays, spending, frequency, and recency

**AI Lawyer Bot - LawyerBot – AI Legal Assistant Using RAG** · RAG, FastAPI, Python, HTML, CSS, JavaScript

Ⓢ [Project Link](#)

- Architected an **AI-powered legal assistant** using RAG
- Implemented document ingestion, chunking, and embedding generation
- Led backend API development using FastAPI and Python
- Developed a web interface using HTML, CSS, and JavaScript

**Handwritten Text Recognition & Translation System** · Tesseract OCR, PaddleOCR, TrOCR, Flask, Python

Ⓢ [Project Link](#)

- Architected an **OCR-based system** to recognize handwritten text from images
- Compared and improved recognition accuracy using Tesseract, PaddleOCR, and TrOCR
- Implemented automatic language detection and multilingual translation
- Built a Flask-based web interface for image upload and text output

## EDUCATION

**B.Tech, Computer Science Engineering**, Indira Gandhi Institute of Engineering and Technology

Nov 2022 - Nov 2026 · APJ Abdul Kalam Technological University
